NOTICE , RECORDS & NUMBER OF DAYS AS PER COAL MINE REGULATIONS 2017

Notices, records for seven days

Reg no	No of days	For (purpose)
3	7 days	change in the boundary of a mine
5	“	within seven days of the abandonment, closure or expiry of the said period of discontinuance
7	“	Notice of change in ownership and appointment of agent, manager, etc
8	“	In respect of every persons killed or injured (notice of accident)
75	“	Every shaft, incline and other outlet provided as required by regulation 71 shall be examined, once at least in every seven days
81	“	once at least in every seven days, by raising each cage or other means of conveyance, in turn, to pass the last control point above the topmost landing
88		i)each winding rope by passing the rope at a speed not exceeding one meter per second; and (ii) the external parts of the winding engine
98	“	Examination of haulage engines
99	“	Examination of haulage and travelling roadways
137	“	tested for percentage of carbon monoxide once at least in every seven days with an automatic detector of a type approved by the Chief Inspector
142	:	once at least in every seven days, inspect all stoppings erected for isolation or control of fire or spontaneous heating belowground to ascertain the general condition of every stopping by checking it for leakage and presence of gas, and the temperature and humidity of the atmosphere outside the stopping.
143	“	every device used for the prevention and suppression of dust produced by any machinery, equipment or process as also for the filtering of the exhausted air and every dust respirator shall be

		inspected once at least in every seven days
145	“	Within seven days of taking of each sample, it shall be sent for analysis and the result of such analysis, immediately on its receipt, shall be recorded in a bound-paged book kept for the purpose and every entry in this book shall be signed and dated by the sampling incharge and be countersigned and dated by the manager.
155	“	Notice for every installation of mechanical ventilator belowground
156	“	examine every mechanical ventilator and booster fan in use and shall record the results of such examination in a bound paged book kept for the purpose and any serious defect revealed by such examination shall without delay be brought to the notice of the manager
167	“	all unused working which have not been sealed off, shall, once at least in every seven days be inspected by a competent person for the presence of inflammable or noxious gas
179	“	The manager, assistant manager, or a competent person appointed for the purpose shall, once at least in every seven days, examine thoroughly every safety lamp in use, and shall record the results of examination of every such lamp in a bound paged book kept for the purpose
213	“	inspection of all machinery and plant in use, and shall record the result thereof in a bound paged book kept for the purpose
237	“	Every fence erected on the surface shall, once at least in every seven days, be examined by a competent person and a report of every such inspection shall be recorded in a bound paged book kept for the purpose, duly signed and dated by the person who made the examination

Notices, records for fourteen days

Reg	No of days	For (purpose)
8	14 days	Notice of dangerous occurrence or accident The owner, agent or manager shall simultaneously exhibit a copy of the notice referred to in subregulation (1) on a special notice board at the office of the mine for a period of not less than fourteen days from the date of such exhibition
94		The state of every buffer and drawbar of every tub in use and of every safety-catch, coupling-chain and other attachment shall be examined once at least in every fourteen days, by a competent person appointed for the purpose and a report of every such examination shall be recorded in a bound paged book kept for the purpose, which shall be signed and dated by the person who made the examination.
143	“	All result of measurements of airborne respirable dust and all other relevant particulars shall be systematically recorded within fourteen days of the date of collection of samples, in a bound paged book kept for the purpose and every entry in the book aforesaid shall be countersigned and dated by the manager within twenty-four hours
149	“	A competent person shall, once at least in every fourteen days during the rainy season and once at least in every thirty days during other periods of the year
152	“	Construction of reservoir, water dam, etc
157	“	In every mine in which a mechanical ventilator is in use, the quantity of air shall, once at least in every fourteen days
159	“	A competent person shall, once at least in every fourteen days, examine every airway, air crossing, ventilation stopping and door in use, and shall record the result thereof in a bound paged book kept for the purpose, and shall sign the same and date his signature

Notices, records for thirty days

Reg	No of days	Reason
4	30 days	If a mine is abandoned or closed or workings thereof is discontinued over a period exceeding sixty days or if a change occurs in the ownership of a mine, the returns required under sub-regulation (1) shall be submitted within thirty days of such abandonment or closure or change of ownership or within ninety days of discontinuance, as the case may be.
6	“	When it is intended to reopen a mine or seam after abandonment, closure or discontinuance for a period exceeding sixty days, the owner, agent or manager shall, not less than thirty days before resumption of mining operations
24	“	Suspension or cancellation of Manager's Certificate, Surveyor's Certificate, Overman's Certificate, Sirdar's Certificate, Engine Driver's Certificate or Gas Testing Certificate
27	“	Qualification and appointment of manager such person holds a Manager's Certificate; (ii) no such authorisation shall have effect for a period in excess of thirty days
32	“	Appointment of engineers no such authorisation shall have effect for a period in excess of thirty days except with the previous written consent of the Regional Inspector and subject to such conditions as he may specify therein
66	“	Where any mine or seam or section thereof is abandoned, closed or the working thereof has been discontinued over a period exceeding sixty days, the person who was the owner of the mine at the time of abandonment, closure or discontinuance shall, within thirty days after the abandonment or closure
86	“	Every detaching bell or plate used in connection with a safety-hook shall be examined, and the opening therein checked by calipers or gauges, once at least in every thirty days.

88	“	once at least in every thirty days, every winding rope, by passing the rope at a speed not exceeding 0.5 meter per second, and for the purpose of this examination, the rope shall be cleaned of any encrusted dirt and grease at all places particularly liable to deterioration and at other places, not more than thirty meters apart throughout the length; and any reduction in the circumference of the rope and the superficial condition of the wires as to wear, corrosion, brittleness and fracture at every such place shall be noted
97	“	at least thirty days before the commencement of the installation of the belt conveyor belowground; and the Regional Inspector may, at any time by an order in writing, require such modifications in the code of practice as he may think fit in the interest of safety
123	“	in respect of a mine where development operations are already in progress, the support plan shall be framed and enforced within thirty days of the date of coming into force of these regulations.
133	“	within thirty days of the receipt of such information, verify and investigate the degree of gassiness and classify the seam into the appropriate degree of gassiness
136	“	All unused workings connected to the surface though a walkable entrance which is not permanently closed, shall once at least in every thirty days be inspected by a competent person for signs of illicit distillation of liquor and a report of every such inspection shall be recorded in a bound paged book kept for the purpose, duly signed and dated by the person making the inspection
142	“	In every coal seam, arrangements shall be made once at least every thirty days to ascertain the atmospheric condition behind the stoppings built to seal off the area of old workings, or such goaf, or a fire or spontaneous heating, unless such stoppings are capable of resisting

		force of an explosion
144	“	require treatment with incombustible dust at such intervals of twenty-four hours, seven days, fourteen days, thirty days, three months or other specified period,
145	“	Representative samples of dust shall be collected once in every thirty days from every zone
148	“	Where it is intended or proposed to reopen a mine or part thereof, which has been isolated, sealed off or flooded with water to deal with a fire or spontaneous heating, the owner, agent or manager shall not less than thirty days before the commencement of such work
153	“	for ensuring compliance with the provisions of clauses (b), (c) and (d) of this sub-regulation, air samples and temperature readings shall be taken at least once in every thirty days and the results shall be recorded in a bound paged book kept for the purpose
156	“	Provided that in a non-fiery seam or a gassy seam of the first degree it shall be sufficient to take the air measurement once in every thirty days
157	“	The manager of every mine in which a mechanical ventilator other than an auxiliary fan is installed shall submit, within a period of thirty days of the installation to the Regional Inspector, standing orders specifying the action that shall be taken with respect to the withdrawal of persons from the mine or part thereof in the event of a stoppage of the ventilator
